

Student Practicums/Internships

We would like you to receive an optimal experience at the Clinical Center and will need your help in making sure you have what you need to start and end your semester on time.

Below is a list of schools with current affiliation agreements for the Graduate Nurse Informatics practicums/internships. If your school is not listed, contact your university to coordinate initiation of a practicum/internship agreement.

Schools that we have contracts with for graduate informatics practicums:

- University of Maryland School of Nursing
- Walden University
- Chamberlain University
- Vanderbilt University
- George Mason University
- Duke University
- Capella University
- University of Phoenix (pending)

Practicum/Internship Process

1. To be considered for a practicum experience at the Clinical Center, or to inquire for further information:
 - a. CC-DCRISStudentPracticum@mail.nih.gov your contact information, resume, and date you will need to begin your practicum
2. We only provide on-site practicums/internships. This is not a virtual experience.
3. After acceptance and matched with a preceptor, you will receive an instructional email to complete online security training and schedule a fingerprinting session at the NIH security office to complete a background check.
4. The above must be completed before you can receive a badge allowing regular access on campus.
5. The process of obtaining a badge may take a significant amount of time, so please inform your preceptor if you have not received the instructional email at least 4 weeks before your start date.
