

# Lymph Node Biopsy Study

Doctors at the National Institutes of Health (NIH) are conducting a research study to learn more about the immune system and its response to HIV infection in lymph nodes. All study-related tests and procedures are provided at no cost to the study participant. Compensation may be provided.

## Study information:

- You must be 18 years of age or older
- You must be HIV positive and not receiving treatment for the condition
- You will have a medical history, physical exams, blood tests and a lymph node biopsy
- You must be willing to come to the NIH Clinical Center in Bethesda, Maryland for up to 5 outpatient visits

**Location:** The NIH Clinical Center, America's research hospital, is located on the Metro red line (Medical Center stop) in Bethesda, Maryland.
